PROFESSIONAL SUMMARY

Passionate about Android Development and Data Structures & Algorithms, I'm a BCA student at Dr. NSAM First Grade College building my technical skills through dedicated learning. I'm eager to apply my knowledge to real-world projects and contribute to open-source initiatives. A self-motivated learner with strong teamwork abilities, I'm seeking a collaborative environment where I can grow while making meaningful contributions.

EDUCATION

BACHELORS OF COMPUTER APPLICATIONS 2023-2026 Dr. NSAM First Grade College CGPA: 8.88	SECONDARY EDUCATION (CBSE BOARD) 2022-2023 Ascent Pre-University College Percentage: 95	HIGH SCHOOL (ICSE BOARD) 2021-2022 Oxford Public School Percentage: 77.4
--	---	--

SKILL

- Programming Languages & Fundamentals:** Kotlin, Java, Python, Data Structures & Algorithms, Problem Solving.
- Mobile Development:** Android Development
- Tools & Platforms:** Git, GitHub, API Integration, MySQL

WORK EXPERIENCE

Siddhrans Technologies - Python Trainee

JULY - PRESENT

Undergoing comprehensive training in Python programming, covering both fundamental and advanced concepts and also learning the principles of API development and integration as a core component of the curriculum.

PROJECTS

- Update-Checker-App:** Engineered a Java-based Android utility that automated the detection of new APK releases, eliminating manual checks by 100%. Enhanced user experience through an intuitive notification interface, ensuring users were always on the latest version. ([click here](#))
- User-Profile-App:** Engineered a Android User-Profile App using Java, featuring real-time data synchronization with Google's Firebase, and improved user engagement by 20% through user-friendly UI designs and intuitive navigation. ([click here](#))
- Employee Data Analyzer:** Engineered a Java application that leverages multithreading for high-performance concurrent processing of employee data. Implemented robust null-safety using the Optional class to eliminate null pointer exceptions. Utilized synchronized collections and thread pools to ensure data integrity during parallel operations. The architecture significantly accelerated data analysis and filtering tasks while maintaining application stability. ([click here](#))
- Library-Management-System:** Architected a full-featured Java Library Management System to digitize the tracking of books, members, and transactions. Streamlined the book borrowing and returning workflow, increasing operational efficiency and reducing manual record-keeping errors. ([click here](#))
- Sudoku-Solver:** Designed and implemented an efficient Sudoku solver in Java using a backtracking algorithm, demonstrating advanced recursive problem-solving. Enhanced user comprehension by integrating a real-time GUI visualization to animate the puzzle-solving process. ([click here](#))

CERTIFICATES

- Introduction to Android Development by Meta ([click here](#))
- Version Control by Meta ([click here](#))
- Basic and Advanced Programming Fundamentals in Kotlin by Meta ([click here](#))
- Principle of UI/UX Design by Meta ([click here](#))

ACHIEVEMENTS

- Secured 2nd position in Intra-College Relay Competition 2024
- Solved 100+ problems on LeetCode ([click here](#))
- Organized a Web Development workshop for 50+ students, covering HTML, CSS, and JavaScript fundamentals

DECLARATION

I HEREBY DECLARE THAT ALL THE INFORMATION PROVIDED IN THIS RESUME IS TRUE AND CORRECT TO THE BEST OF MY KNOWLEDGE AND BELIEF
